1800 – 1930 Cocktail party - Sofitel on Collins

1930 – Faculty dinner (by invitation only) – Salon de Thé, French Saloon

Dermaslide® Needle

A definitive choice for skin closure.

Advantages of the needle with a micro-engraved body:

- Excellent tissue penetration^{1,2}
- High bending performance^{1,2}
- Improved stability in the needle holder²

1. B. Braun Test Report 113_139/A Benchmark Cosmetic Needles: Ethicon-Covidien - S&R.
2. B. Braun R&D Testing Services Report (RDR-22-13110-FJB-CMY).

The diagram illustrates the Dermaslide® Needle with several key features labeled: a 2-side sharpened thin point at the tip, a silicone coating along the length, a micro-engraved body for improved tissue penetration, 300 series stainless steel construction, an adjusted wire ratio for flexibility, and a unique trapezoidal design for stability in the needle holder.
